Upholstery Care

Cleaning FAQ

Quick Care Guide

Regular Cleaning

- Mild dish soap + warm water
- Microfiber cloth only
- Wipe evenly → rinse with clean water → dry

For Tough Stains

- Repeat mild dish soap cleaning
- Spot clean only
- Rinse and dry

Do Not Use

- Shine or polish products
- Leather conditioners
- Abrasive cleaners

What should I use for regular cleaning?

Use a mild dish soap and warm water for routine care.

- Mix 1 teaspoon of mild dish soap with 1 cup of warm water
- Lightly dampen a microfiber cloth
- Wipe the surface using even, overlapping strokes
- Follow with a clean cloth dampened with plain water
- Dry thoroughly with a soft cloth

How do I clean tough stains or oily residue?

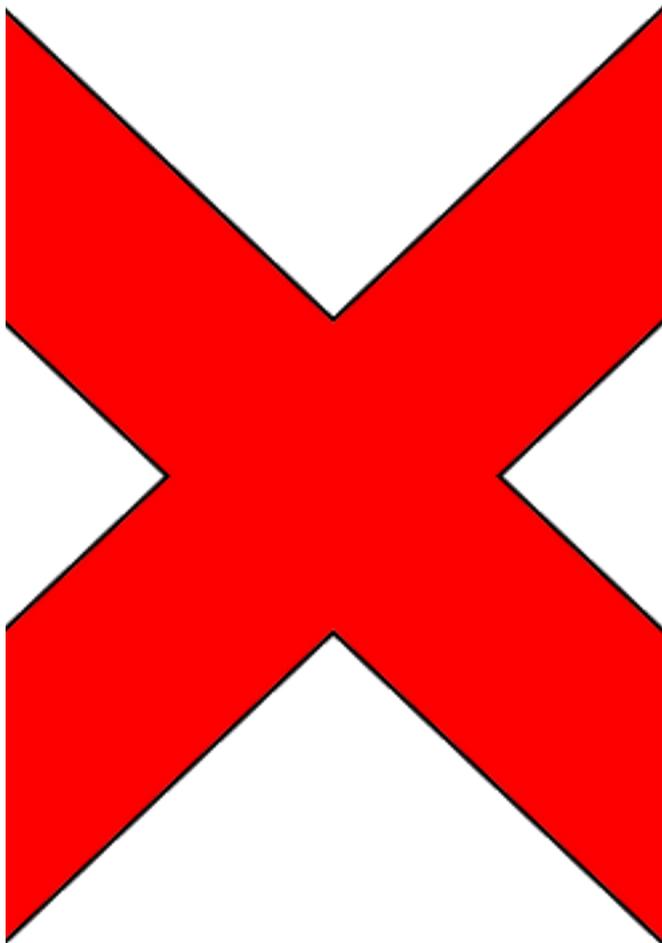

Mild dish soap is effective for most everyday dirt, oils, and residue.

- Repeat the soap + water method
- For stubborn spots, gently wipe using a damp microfiber cloth with a slightly stronger soap dilution
- Rinse with plain water and dry thoroughly

What should I avoid?

Avoid products that leave residue, shine, or may damage the surface.

- Furniture polish or “shine” products
- Leather conditioners
- Vinyl or dashboard cleaners
- Abrasive pads or cleaners

Important Care Note

Always test any cleaning method in an inconspicuous area first.

Using cleaners not listed above may cause discoloration or surface damage and is not recommended.
